COVERED EMPLOYMENT AND WAGES BY INDUSTRY

STATEWIDE AND BY COUNTY

1981

Prepared by: Research and Statistics Section
Joe S. Cummings, Chief
519 Cordell Hull Building
Nashville, Tennessee 37219

Authorization #0052. 850 Copies.
This public document was promulgated at an annual cost of $3,200 or $3.77 per copy to comply with statutory requirements.

INTRODUCTION

This publication contains county summaries of employment and wages by industry for firms covered by unemployment insurance during 1981. Included also is a summary for the State as a whole. The statistics were compiled from quarterly contribution and wage reports submitted to the Tennessee Department of Employment Security by employers subject to the Tennessee Employment Security Law.

Shown in the first three columns of the tables are the number of reporting units (number of covered employers), the annual average employment in each industry and the total wages paid in each industry during the calendar year. The total wage figure was divided by the annual average employment to obtain the annual average wage which, in turn, was divided by 52 to get the average weekly wage. The final three columns consist of taxable wages, (only the first $6,000 of an employee's wages are taxable) total contributions to the UI fund, and the average tax rate (total contributions expressed as a percentage of taxable wages).

State and local government employers are allowed the option of a taxpaying status at a special tax rate of 1.50 percent, or that of reimbursing 100 percent of benefits paid to their former employees. State and local government totals include both taxpaying and reimbursing.

State totals for all industries are contained in the first table, "Statewide", followed by county breakouts. The "Statewide County" table, following the individual county tables, is composed of data from firms having no established place of business in Tennessee or having establishments in more than one county. Some multi establishment firms do not report in any particular county. In the case of a firm having establishments in several counties, the data for the establishments will not be included with the statistics for the particular counties in which they are located unless separate county reports are received. Rather, they will be found in the "Statewide County" table. In the final table the counties are ranked according to their average weekly wage in covered employment.

In cases where listing a firm under its specific industry would divulge confidential information concerning that firm, it is listed under "All Other Durable Goods", "All Other Nondurable Goods", "All Other" or "Services and Other". Data have been blocked out in the instances where it would still be possible to discern specific information about a single firm. This editing was necessary in order to comply with Federal and State regulations regarding disclosure of individual firm data.
